The Harness Engineering & Model Wrangling Hackathon

The Malin Chelsea, New York, NY
Sat, Sep 26 at 9:00 AM – 10:00 PM (EDT)

Submit Project

idea. Finalists will demo their projects LIVE at MongoDB.local New York City on September 30th.

The next chapter of agentic infrastructure is memory, persistence, and self-evolving systems. Join us for a hackathon with the MongoDB team focused on solving the hardest problem in agentic AI: building harnesses that can adapt, remember, and operate reliably over the long haul.

We're looking for impactful projects built with MongoDB Atlas, Vector Search, and Agentic Memory tooling. Whether you're building agents that rewrite their own guardrails, systems that hold context across weeks-long tasks, or entirely new approaches to persistent agent memory, this is your opportunity to build the infrastructure the next generation of agents will run on.

Prizes

\$15,000 in cash prizes will be awarded across the three final teams, and more prizes will be announced!

Judges

Top judges from MongoDB, our partners, and the NYC ecosystem will be joining us, including:

[Joseph Morais](#), Principal Evangelist - MongoDB

[Louis Vichy](#), Co-Founder - OpenRouter

[Brooke Jamieson](#), Sr. Developer Advocate - AWS

[Vin Sachidananda](#), Partner - Radical Ventures

[Dan Zakon](#), Director of Engineering - Tenex

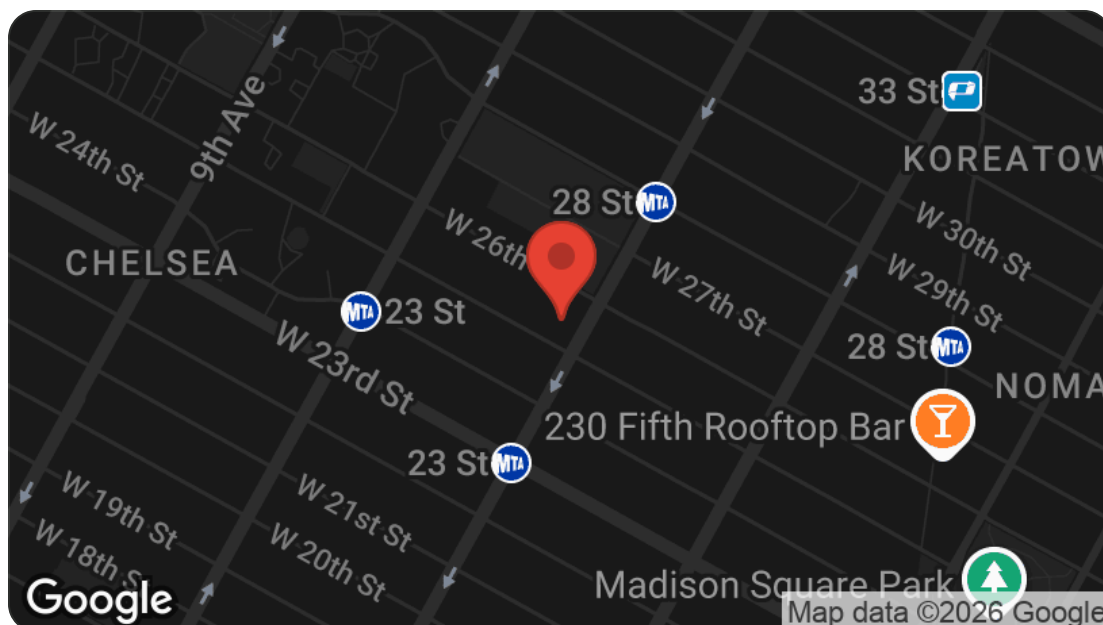

[Andrey Sibirev](#), Senior Director of Engineering (Compute) - Vercel

Important Notes

Submit Project

at .local NYC.

In order to be eligible to win, finalists MUST be available on September 30th to attend MongoDB.local NYC and present their project. At least one member of your team must be present starting at 10 AM EST to demo your project to conference attendees and collect votes, ultimately resulting in the top 3 teams who will demo on stage in the afternoon.

Partner credits are live!

Submit Project

Open [v0.app](#) and sign in (or create a free account).

Click your profile picture (top right), then Credits, then Redeem Code.

Enter code V0-MONGO30.

 OpenAI: Codex credits

Request them here: <https://cv.inc/s/7U8ruib>

Codes will be emailed to checked-in attendees who fill in the form. Credits expire 30 Sept.

 OpenRouter: credits + setup guide

Everything you need is here: <https://cv.inc/s/B5QvWrQ>

Questions? Use #questions on Discord or speak to anyone in a CV or MongoDB shirt!

Announcement 4h

Good morning!

Today's the day — The MongoDB Harness Engineering & Model Wrangling Hackathon in NYC 🇺🇸 🧠

Doors open at 9am, kickoff at 10am — see you there!

⚠️ The nor'easter is bringing high winds and heavy rain across NYC and Long Island through the weekend, and a state of emergency has been declared for the city and surrounding areas. The event is going ahead as planned regardless — please plan your commute with extra time, stay safe getting to us, and dress for the weather.

Entrance: Please use the "By The Malin" entrance at 220 W

Submit Project

Event details & rules: <https://cerebralvalley.ai/e/mongodb-nyc-hackathon/details>

Discord: <https://cv.inc/s/ceUNiHL> — join for team formation, live updates, and support throughout the day.

See you soon!

Announcement 16h

Hey! Looking forward to welcoming everyone tomorrow for the MongoDB Harness Engineering & Model Wrangling Hackathon in NYC 🇺🇸 🧠

📍 Doors open at 9am, kickoff at 10am.

You may have seen the nor'easter bringing high winds and heavy rain to the area this weekend — the event is going ahead as planned regardless, so come prepared for wet weather and see you there!

Entrance: Please use the "By The Malin" entrance at 220 W 26th St — the regular Malin entrance is not open for the hackathon, so make sure you look out for the right one when you arrive.

Please also read through the event resources and problem statements ahead of time so you're ready to hit the ground running: <https://cerebralvalley.ai/e/mongodb-nyc-hackathon/details>

Don't forget to join the Discord if you haven't already: <https://cv.inc/s/ceUNiHL>

See you tomorrow!

Submit Project

team, they need to be approved on the **Cerebral Valley** platform before then.

If they've only registered on Luma so far, please have them head to the CV platform now and register there too: <http://cv.inc/e/mongodb-nyc-hackathon>

Don't miss the window — get this done in the next 15 minutes!
